

Insurance Analytics Accelerator

Accelerating business value through data and analytics

/ (四) 😒 🗘 🗘

Unleashing Insurance Insights

The Insurance Analytics Accelerator is built to meet the needs of small to mid size P&C insurance companies. It combines industry-wide feedback to close the gap on challenges within the current system and allowing your company to unleash its full analytics potential.

Modern Analytics Meets Insurance

GROW

The solution that evolves with you.

Uncover new opportunities and insights across your organization.

TRANSFORM

Fast result with accurate data.

With a completely web-based product powered by Qlik Sense[®], you can slice and dice your data in a matter of clicks, transforming your data into actionable insights and outcomes.

PLAN

An entire overview in minutes.

Get instant access to your data from the past to make insightful, data-driven decisions in the present.

EXPERIENCE

We know insurance.

With over 20 years of insurance experience, we combined our technical and industry knowledge to create a custom insurance solution and are recognized globally in InsurTech.

Biz×cel[™]

What's Included

4 user applications

144 pre-built charts/visualizations

Multiple use cases based on role

100% web based

Built on Qlik[®] Sense[®]

Why Governance?

Created for Executives and Directors

Analytics and Reporting

Income Analysis, Expense Analysis, Underwriting Profit, Policy Changes, Claims Trends, and more!

Merging Systems

Compare Accounting and Insurance Management Systems for accurate and detailed information about claims.

Profitability

Measure organization-wide efficiency by analyzing surplus, equity, income, among others.

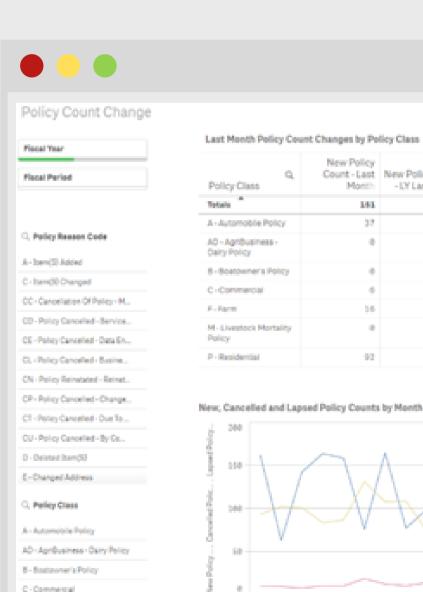

6 Q Q

An answer to every question.

The operations application focuses on business retention and growth, drill down analysis on specific broker or firm, policies in force, profitability analysis and diagnostics, and claims analysis including large loss analysis.

Why Operations?

Created for Everyone

Monitor and Analyze

PIF Analysis, Major Usage and Item Profitability, FSA, Claims Triangles, and more!

Detailed Information

Insurance Management Systems used for accurate and detailed information about claims.

Accessible Information

With 22+ sheets of information, focus on business retention and growth.

(言) 🄝 🔅

Agent & Broker Performance

The Multi-level Solution

Designed to provide top level reports that can be broken down into individual agent performance metrics.

Why Agent & Broker Performance?

Created for Performance Managers and Strategists

Detailed Reporting

Take the guess work out of reviewing your agents and brokers by seeing their true performance.

Driving Insights

Identify risks by analyzing new endorsements, claims event/catastrophe map.

Data Driven Results

33+ visualizations.

Workflow

Measuring Turnaround

Monitor and plan pending work with the workflow application. It provides insights into how many renewals have been processed and how many are remaining allowing for better transitions and reporting.

Policy Class	۹	Policy Number
C - Commercial		15815002-1-0
P - Residential		103P33-1-0
P - Residential		103P32-2-0
A - Automobile Policy		109504A01-1-0
F - Farm		23350F01-25-0

Why Workflow?

Created for Managers and Strategists

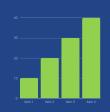

Business Turnaround

KPIs on New Business, Endorsements and Cancellations with trends overtime.

Manage Service Level Agreements

Identify bottlenecks in processing and make adjustments based on information.

Future Planning

View remaining renewals left to be processed based on the number of days into the future.

We drive transformational change

We do what an organizational management consulting company should do - we make your job easier and your organization better.
